KARIM BICHRI

IT Support Technician & Web Developer | Java · Python · JavaScript (MERN) · SQL | Bilingual French/English
Montréal, QC | 514-449-4635 | karim.bichri.ls@gmail.com

PROFESSIONAL SUMMARY

IT support technician and web developer with hands-on experience in hardware and software troubleshooting, workstation deployment, and user support in demanding production environments (Ubisoft, Fairmont Le Manoir Richelieu). AEC in Web and Mobile Programming (Teccart, 2024) and BTS in Information Systems Development, with practical skills in Java, Python, Spring, JavaScript, the MERN stack, and SQL. Also experienced in retail operations leadership as an assistant manager (Couche-Tard) and in high-volume customer service (BIXI, Agence de mobilité durable, Centre Bell box office). Known for clear communication with non-technical users, rigorous documentation, and reliable follow-through. Open work permit — authorized to work in Canada. Available immediately.

TECHNICAL SKILLS

- **Programming & Web:** Java (Spring), Python, JavaScript, MERN stack (MongoDB, Express.js, React, Node.js), HTML5/CSS3, SQL, REST APIs, Git.
- **IT Support & Systems:** Windows/Linux troubleshooting, Active Directory, ServiceNow, ITIL practices, VMware, Microsoft Azure, Citrix, hardware repair and maintenance, network basics (TCP/IP).
- **Business Tools:** Microsoft 365 (Word, Excel, Outlook), Excel with VBA, QuickBooks.
- **Service & Operations:** customer service, sales, supplier relations, team supervision, cash management, inventory and receiving.

PROFESSIONAL EXPERIENCE

IT Support Technician | Ubisoft, Casablanca-Settat, Morocco

June 2020 – August 2021

- Component-level repairs and troubleshooting of technical equipment to resolve hardware failures.
- Diagnosed and resolved hardware, software, and access issues for studio employees, on site and remotely.
- Documented support requests and interventions, tracked tickets, and escalated complex incidents to the IT team.
- Explained technical problems and solutions clearly to employees with varied technical backgrounds in a demanding production environment.
- Managed incident tickets through an ITSM system (ServiceNow-type): prioritization, tracking, and resolution within SLAs.
- Managed accounts and access (Active Directory): account creation, password resets, and rights assignment.
- Prepared and deployed workstations: imaging, peripheral setup, and office software configuration.
- Collaborated with network and systems teams to resolve complex incidents and improve support procedures.
- Remote assistance: remote control sessions, validation testing, and resolution confirmation with the user.
- Contributed to IT asset inventories and wrote guides and procedures for the support team.

IT Support Intern | Fairmont Le Manoir Richelieu, Charlevoix, QC

May 2023 – July 2023

- Diagnosed and repaired hardware and software issues on staff workstations and peripherals.
- Installed, configured, and updated workstations, peripherals, and software across the property.
- Worked with the IT team to update the hotel website, enabling online appointment booking.
- Provided responsive on-site technical support in a fast-paced hospitality environment.

IT Technician Intern | Jawjab, Casablanca, Morocco

May 2019 – September 2019

- Installed computer hardware and servers as well as operating systems.
- Troubleshot operating systems, hardware, network connectivity, and protocol issues.
- Performed hardware repairs to resolve equipment failures.
- Configured network equipment: IP addressing, connectivity testing, and infrastructure documentation.
- Supported end users: office productivity assistance and guidance on IT tools.
- Documented interventions and configurations, with progress reports sent to the supervisor.
- Preventive maintenance: regular inspection and cleaning of the IT equipment fleet.

Assistant Manager | Couche-Tard, Montréal, QC
2022 – 2023

- Supervised a team of clerks daily: task assignment, schedule management, and training of new employees.
- Managed cash and transactions: register openings and closings, discrepancy checks, and end-of-shift reports.
- Customer service: greeting, complaint handling, and quick resolution of difficult situations.
- Maintained store standards: cleanliness, displays, inventory counts, and health and safety procedures.
- Tracked sales and promotions: set up signage and displays according to directives.
- Received merchandise: checked deliveries, rotated stock, and restocked products.

Tow Operations Clerk | Agence de mobilité durable, Montréal, QC
2024 – Present

- Coordinated towing operations: file tracking and communication with field operators.
- Maintained logs and documented interventions according to established procedures.
- Communicated with citizens: information, guidance, and professional handling of requests.
- Tracked files and complaints: recording, updating, and forwarding to the relevant departments.
- Coordinated with field teams to keep towing operations running smoothly.

Station Attendant | BIXI Montréal, QC
2023 – Present

- Maintained and repaired bikes and stations: basic mechanical diagnostics and returning equipment to service.
- Redistributed bikes between stations based on demand and reported technical anomalies.
- Assisted users: help with terminals and mobile apps, answered questions.
- Monitored station condition: verified terminal operation and reported outages.
- First-level troubleshooting: unlocking bikes and explaining subscriptions and pricing.

Box Office Clerk (occasional) | Centre Bell, Montréal, QC

- Occasional box office work: ticket sales and customer service for events.

TECHNICAL PROJECTS

- **Windows and Linux labs:** configured workstations, managed user accounts, and resolved simulated incidents.
- **Data automation (Python):** developed data processing and validation scripts.
- **Inventory application (Java):** requirements analysis, data modeling, interface development, and testing.
- **Web and mobile projects (Teccart):** designed applications with HTML/CSS, JavaScript, and relational databases.

EDUCATION

- **Bachelor's degree in Computer Science and Software Engineering** — UQAM, Montréal — In progress
- **Attestation of College Studies (AEC), Web and Mobile Programming** — Institut Teccart, Montréal — 2024
- **Higher Technician Diploma (BTS), Information Systems Development** — Lycée Technique Settat, Morocco — 2020
(MIFI comparative evaluation: equivalent to a Québec technical DEC)

LANGUAGES

- **French:** native / bilingual | **English:** very good
